Environmental Management System (EMS)
Environmental Policy

The City of Asheville, Department of Transportation, Transit Services Division:

- Is strongly committed to maintaining a safe and clean environment, preventing pollution and preserving the community's natural mountainous resources.
- Strives to continuously improve environmental practices with the goal of meeting or exceeding all environmental regulatory requirements and comply with the "Green and Sustainable" goal as listed in the City Strategic Operating Plan.
- Empowers each employee through ongoing training and will actively seek employee and public input in promoting environmental stewardship.
- Is committed to minimizing significant environmental impacts by setting environmental objectives and continually evaluating progress toward meeting those objectives.

This policy is documented and communicated to employees and the community and is available for review.
