July 2013 Storm Damage

Council update

Background

These events were a result of record rain for our area.

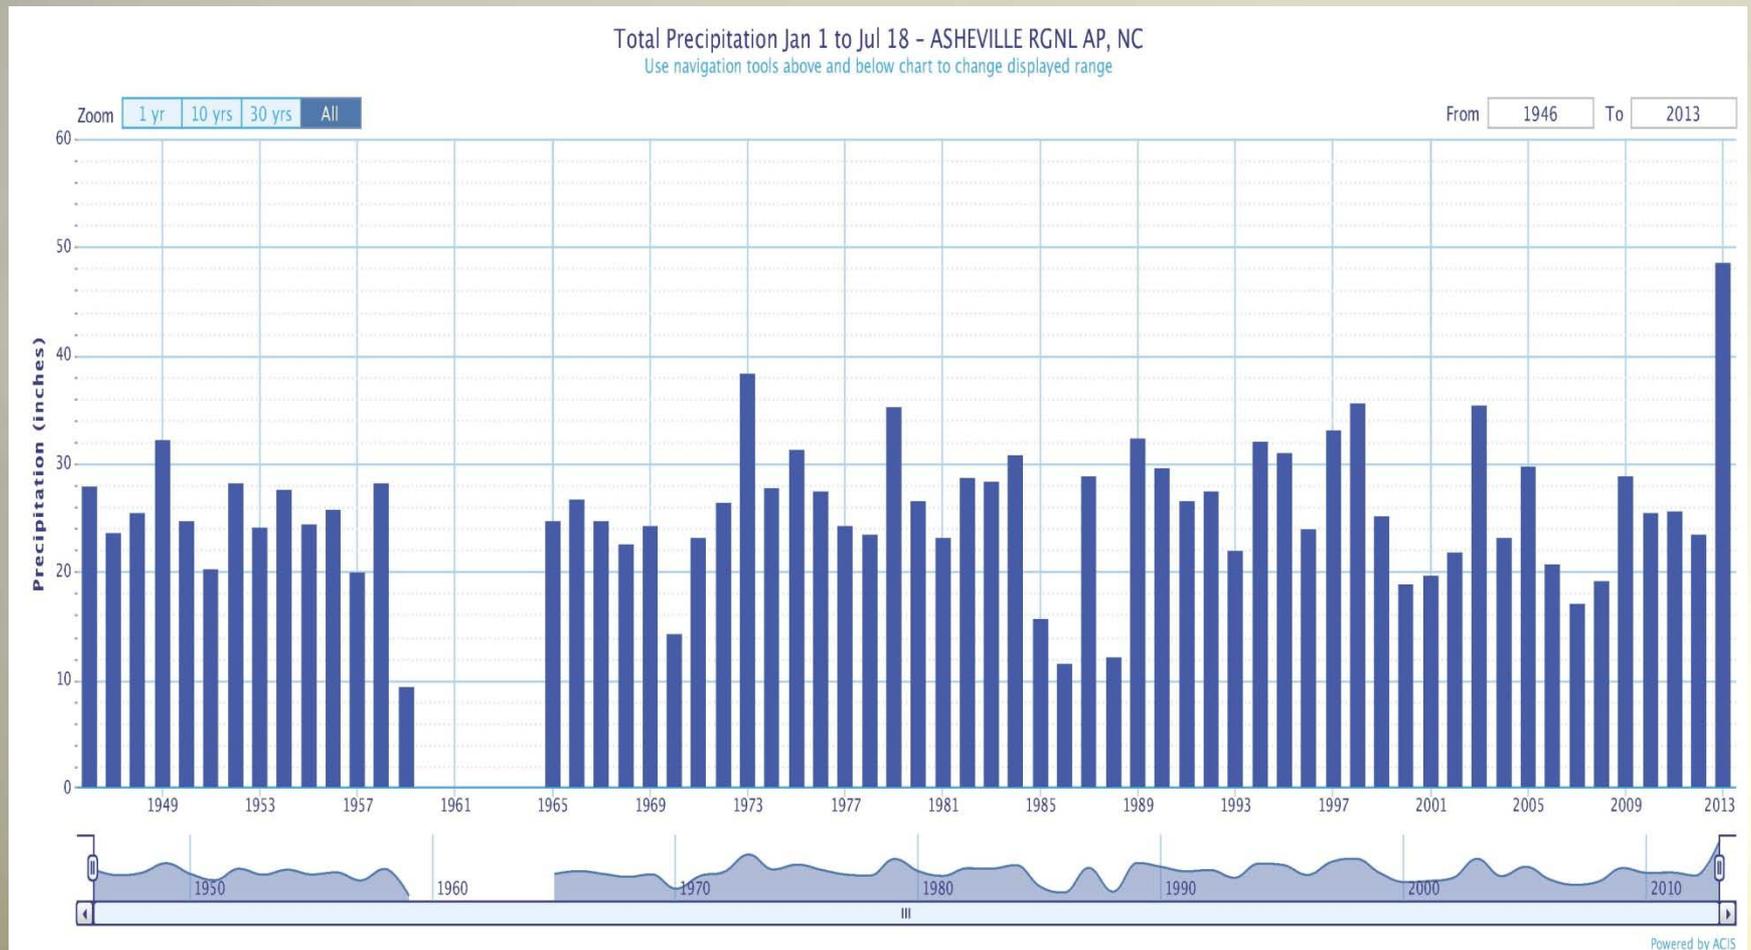

- From January 1 through July 8, we've received 41.67 inches.
- That exceeds our **annual** normal rainfall by 4.68 inches.
- This is the earliest our annual total has been surpassed (by two months).
- We're well on our way to surpassing the record annual amount of 64.91" set in 1973.
