## What is happening now?

City Transportation staff are currently working on a request for proposals (RFP) for 100% complete design plans for pedestrian improvements. More information will be available on the timeline for the RFP release once City Council has approved the annual budget on June 24, 2014.

### Activities related to the Charlotte Street Corridor:

- |                   |  |
|-------------------|--|
| November 19, 2013 | Present an action plan and schedule for possible capital improvements to enhance pedestrian safety and mobility to the <a href="#">Planning and Economic Development Committee</a> .<br><br>Materials presented: <a href="#">Staff Report</a> , <a href="#">Traffic Counts</a> , <a href="#">Alternatives Matrix</a> |

| September 7, 2012 | Deadline for responses to a <a href="#">Request For Qualifications</a> (RFQ) for a comprehensive traffic engineering study   |
| March 27, 2012    | Public <a href="#">Comments from meeting</a> posted online   |
| February 6, 2012  | The City of Asheville Transportation Department held a public meeting on February 6, 2012 at the Jewish Community Center to gather community input on ways to make the Charlotte Street Corridor safer for pedestrians.  |

Approximately 200 residents and property/business owners attended the meeting. The Transportation Department Director Ken Putnam presented information on past [studies](#) and [plans](#) for the corridor and current traffic counts. He also presented information on possible strategies to address community concerns about pedestrian safety. Questions and comments were taken and will be used by city staff to determine next steps.
