**Total Miles Qualified for Traffic Calming 12.25 Miles**

NOTE: The potential projects that are listed represent the official "backlog" list as of June 30, 2013. According to City Council action, these projects are the only ones that can be considered for construction funding with the available city-designated funds. Before funds are obligated towards a specific street, further study is needed to determine if all of the other criteria is met to allow traffic calming devices to be installed including the completion of a 60% petition.
