

Craven Street Improvement Project: Multimodal Roadway Improvement and Waterline Upgrade

Posted 09/23/2014
Last Revised 12/11/2015

Timeline

2015 AUGUST 7

Estimated reopening of Craven Street for local traffic

2015 MAY

All water and sewer work is complete.
Craven Street from Waynesville to Hazel Mill Road will be paved and open by mid-May.
Work will begin on section between Waynesville and Haywood Road when that section is open.

2014 NOVEMBER

Realignment of the intersection of Craven Street and Hazel Mill Road completed

2014 SEPTEMBER

Craven Street will be closed to complete roadway improvements

2014 APRIL 21

Construction begins on the Waterline upgrade and multimodal improvement project

What's happening now?

The final layer of resurfacing has been placed on Craven Street. The sidewalks have been poured and crews are finalizing the on street stormwater control measures. The bike lanes are installed.

The grading on the greenway portion continues with work focusing on the section south of Penland Creek. The greenway work is anticipated to be completed in the spring with the completion of the connection to Haywood Road and final surface paving of the entire greenway.

The grading for the stream restoration is complete, for all the stormwater control measures and the stream restoration, the final plantings will take place in the spring (2016).

Background

The Craven Street Multimodal Roadway Improvement project is a part of the larger Craven Street Improvement project located in the area surrounding the New Belgium Brewery construction site.

This portion of the project involves Haywood Road to Emma Road, a road section that is currently inadequate for New Belgium Brewing's operations. The road will be widened to the east of the current layout in order to accommodate trucks and to include bike lanes, necessary stormwater infrastructure, and an ADA compliant sidewalk on Craven Street from Haywood Road to the Craven Street Bridge. A realignment of the intersection of Craven Street and Hazel Mill Road will significantly improve transportation navigation issues and increase public safety. A transit shelter will be provided at the intersection of Haywood Road and Craven Street.
