

STAFF REPORT

To: Planning and Economic Development Committee DATE: February 26, 2013
From: Ken Putnam, Transportation Director Prepared by: Barb Mee
Via: Gary Jackson, City Manager Transportation Planner
Subject: Update the Memorandum of Understanding with the Metropolitan Planning
Organization

Summary Statement: Consideration of a recommendation for City Council to enter into a Memorandum of Understanding with the French Broad River Metropolitan Planning Organization (FBRMPO) which has been updated to reflect changes in population patterns during the last census and to comply with Federal and State requirements.

Review: The FBRMPO operates under a memorandum of understanding (MOU) between all of the member counties, municipalities, and the North Carolina Department of Transportation (see attachment 1). The FBRMPO exists under federal law to provide cooperative, comprehensive and continuing planning for transportation in the region.

The extent of the area for which the FBRMPO must plan is the urbanized area as determined by the population patterns reflected in the decennial census. The latest census (Census 2010) led to the expansion of the urbanized area, which now includes more of Buncombe County and parts of Madison and Transylvania Counties. The FBRMPO may enlarge the urbanized area so that the planning area boundaries make sense and are acceptable to the member jurisdictions. Attachment 2 shows the new urbanized area and FBRMPO planning boundary and highlights new additions to the urbanized area.

Jurisdictions within the urbanized area, while represented by the FBRMPO, may choose whether or not to participate. As newly included jurisdictions in the urbanized area, the Town of Mars Hill and Madison County have chosen to join the FBRMPO as full members while Transylvania County has chosen to only be a non-voting, ex-officio member.

Under the last MOU, the FBRMPO boundary included some parcels that are in the Asheville watershed. Buncombe County has requested that these parcels be excluded from the new FBRMPO boundary and included in the adjacent Rural Planning Organization (RPO) area. The parcels are not in the urbanized area, they have no population and few jobs, and they adjoin the area in the northeast corner of the county that is already in the RPO. These areas are shown on the map with attachment 3.

Additionally, this MOU:

- Changes the name of the FBRMPO governing body from the "Transportation Advisory Committee" (TAC) to "MPO Board."
- Removes language in several sections that refers to the priority needs list and replaces it with more general prioritization language. The specific prioritization process language will be moved to the FBRMPO by-laws, which are adopted by the FBRMPO governing body. The prioritization process is regulated by the North Carolina Department of Transportation.

- Changes some terms used in former federal transportation bills to match those used in MAP-21, the current federal transportation bill.
- Spells out acronyms in the document.

Attachment 4 includes the proposed MOU, showing the additions and deletions of language from the MOU currently in place.

In recent years, funding coming to the city through the FBRMPO includes:

- Ongoing funding for one transit planning position.
- Federal Transit Administration capital and operations grants.
- The Clingman Avenue streetscape project.
- ARRA transportation projects (resurfacing Kimberly Avenue, Coxe Avenue, constructing sidewalks on Choctaw Street, Evelyn Place, Hendersonville Road, Hilliard Avenue, and Linden Avenue and constructing bicycle facilities on Asheland Avenue, Choctaw Street, Coxe Avenue, Hilliard Avenue, and Martin Luther King Jr. Blvd).
- The RADTIP Study (Environmental Document).
- Upcoming Hendersonville Road and New Leicester Hwy sidewalk/pedestrian crossing projects.
- Upcoming Complete Streets workshop (\$8,000 special study money, 80% of anticipated costs, balance of \$2,000 from County Health Department, and free U.S. Cellular Center rent for session from City).

This action complies with the City Council Strategic Operating Plan in that continued membership in the FBRMPO will help support the Council's fiscal responsibility, safety, multimodal transportation and community development goals by leveraging partnerships for capital improvement and infrastructure projects, accessing any remaining Safe Routes to School funding, seeking partnerships for investments in greenway and sidewalk infrastructure, and partnering in key local and regional initiatives.

Pros:

- Enables the FBRMPO to meet Federal and State requirements.
- Keeps the City as a voting member of the FBRMPO.
- Enables the City to have access to Federal and State funding.

Con:

- The City pays annual dues of about \$18,000.

Fiscal Impact: Currently, the annual dues are \$18,000 and they are included in the operating budget of the Transportation Department.

Recommendation: City staff recommends that the Planning and Economic Development Committee support the updated memorandum of understanding (MOU) and move it forward to City Council for review and adoption.

2. If a Board member does not attend or does not send his or her designated alternate to two (2) consecutive meetings of the Board, the member will be considered inactive. Following the designation as inactive, if the member or his or her alternate is not in attendance at a subsequent Board meeting, he or she will not be counted for quorum purposes. The member will be automatically reinstated and counted for quorum purposes by attending or sending his or her designated alternate to a Board meeting.
2. A simple majority shall determine all issues, except as provided in Section K below, where optional weighted voting may be invoked during adoption of the Draft MTIP or Final MTIP.

K. Metropolitan Transportation Improvement Program (MTIP) Development

The MTIP shall include all information typically contained in the STIP, including, but not limited to route number, project I.D. number, project limits, project description, proposed implementation schedule, funding source, and projected cost. The MTIP is intended to represent local priorities for transportation improvements. Once it is adopted, any discrepancies between the MTIP and the STIP will be negotiated through established State and Federal processes.
2. For adoption of the Draft MTIP or Final MTIP, any member of the Board may call for the use of veto power or a weighted vote under the following circumstances:

Veto Power

When any project is on a road that does not carry an Interstate route designation, is not located on a limited-access highway, or is not a designated Strategic Highway Corridor, any member of the Board shall be allowed to call for a veto vote to determine whether a selected project will be excluded from the MTIP. In a veto vote, members from jurisdictions that are “directly impacted” by the project may vote to exclude a project from the MTIP, provided that every

Board member from the “directly impacted” jurisdictions must be present, and must unanimously vote for the veto. The call for a veto vote can only take place at a duly advertised meeting of the Board in which a quorum is present.

3. For the purpose of implementing its transportation priorities, the Board may develop a supplement to the MTIP containing descriptions of project design. Design information for a particular project will be

included in the supplement on an as needed basis at the request of member jurisdictions. For roadway projects, the information may include the preferred alignment, the number of lanes, the inclusion of medians, and the extent and location of pedestrian and bicycle facilities. Other design information will be included in the supplement as needed to establish the general parameters of project design. The supplement shall serve as a planning document to guide MTIP development, and shall be amended as needed. Generally, project design information will not be included in the supplement until a project has completed the NEPA process, design public hearing process, or any other required public involvement process.

L. Project Prioritization

The Board shall develop a list of projects for transportation improvements in conjunction with the NCDOT prioritization process as codified in NCGS § 136-18.42. This entails preparing a list of projects for staff to evaluate against NCDOT's quantitative measures, then choosing a subset of projects.
