Department Functions:

The City Attorney's Office advises the City and its officials on legal matters, and represents the City in legal and administrative proceedings.

Here is what we purchase and contract for over the course of the fiscal year:

- Office supplies are purchased on an as needed basis
- The City Attorney's office also contracts for specialized services, such as surveying, transcription, and legal services, on an as needed basis.
- Books and legal materials, from specialized vendors, usually single source.
