

# Differences in the North of the City

These maps show the North of Asheville in the **Existing Network** and the **Draft Network**. Remember that the Draft Network has been designed to focus a little more on services that can maximize ridership while keeping coverage in areas with many low-income persons.

## Removal of Coverage

In the North, the Draft Network removes service from these places:

- Beaverdam Road
- Grove Park Inn

## Higher Frequency

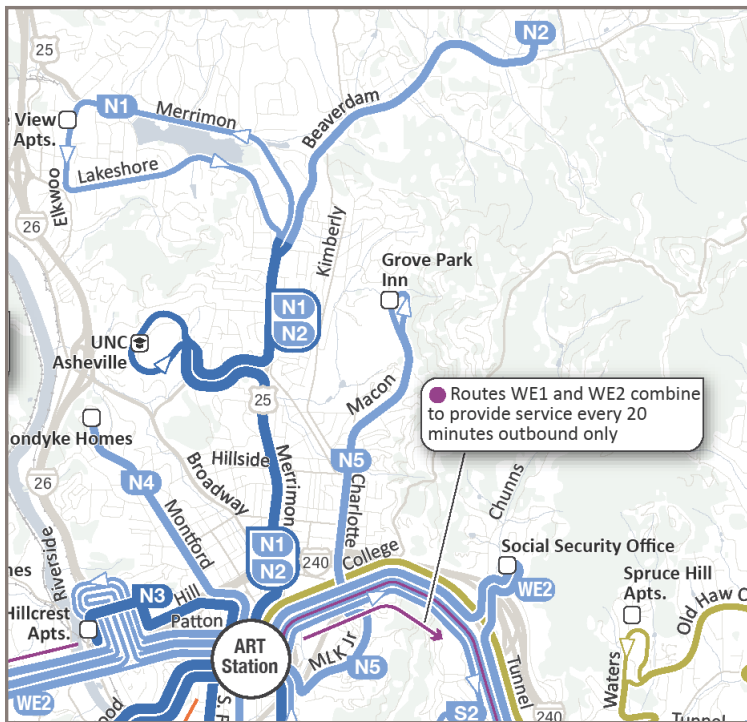

In the North, the Draft Network has frequent, 15-minute service from Hillcrest Apartments to Downtown.

## Other changes

UNC-A still has 30-minute service like today, but instead of being the combination of routes N1 and N2, in the Draft Network, it's Route 3. Route 3 has a loop to provide 30-minute service as far north on Merrimon Avenue as possible.

While Lakeshore Drive still has service, the route that serves Lakeshore now connects to Downtown via Charlotte.

## Existing Network

## Draft Network
